Special Day for Russia

The 7th November was Special Day for Russia. At this occasion, Alexander Ilin and Mark Futerman introduced their home to the whole class. Russia has a reach historical and cultural background. Russian people went a long way from the Kievan Rus' through a great period of the Russian Empire and an ambiguous period of the Soviet Union to the modern Russian Federation. Russian history begins in 860 A.D. when the Kievan Rus' was settled with a help of varagians (vikings). During the time Russia became bigger and stronger. One of the most great periods in Russian history is connected with ruling of Peter the Great, the emperor of the Russian Empire. He turned Russia into a modern European state with powerful army and fleet and provided scientific and cultural growth.

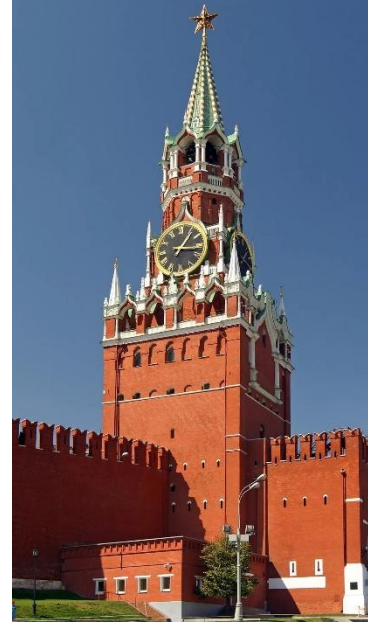

One of the most tragic events in Russian history was the Civil war of 1917-1922. It was a serious defeat for our national identity and culture.

Among famous persons in the Russian culture are writers and composers such as A.Pushkin, F.Dostoevsky, L.Tolstoy, I.Turgenev, A.Chekhov, P.Tchaikovski, S.Rakhmaninov. Their works made a strong impression on the world culture.

Russia is a semi-presidential constitutional Federative republic. The President of Russian Federation as the head of the state shall determine the guidelines of the internal and foreign policies of the state. Our president Vladimir Putin rules over the state for 17 years and got a serious influence in this period.

The Russian Federation belongs to the countries with the Civil Law system. The Russian Legislature has two organs: the Federation Council and the State Duma. In the Executive Power branch the President has a highest power and authority. The Russian Judicial system include courts with a different jurisdiction. It comprises five instances and subdivides into the Constitutional Court, the Supreme Court, the Courts of General Jurisdiction, the Commercial Courts, the Intellectual Property Court, the Military Courts. Russia has a multi-party system, but during the last 17 years an unopposed party "The Unite Russia" dominates in the political life.

Special Day for Mexico

On November 8th, 2017 exchange student Aron Ryuji Tanaka Kerrigan introduced a real Mexico on the class of Chinese Culture and Law. For a long time, it has been one of the main countries to visit, a culture full of traditions and color, which amazes the foreigners and makes them feel welcome. More than talking about the political system, his aim in this article is for the people in this university to get to know a little bit about his culture and heritage.

Mexico City, is one of the most populated cities in the world, such as Beijing. However, as you might know, a big metropolis not only offers to chaos and traffic to its visitors, a endless varieties are waiting to be discovered. If you want to find some cultural attractions, one and half away from the city you will find the Teotihuacan Pyramids, which gives you an idea of the greatness of the indigenous cultures that used to live in that zone. If you consider yourself as a more modern person, there is also plenty of activities for you. Bars, restaurants and high-quality entertainment are available to satisfy your needs.

- Full name: United Mexican States
- Population: 125 million
- Capital: Mexico City
- Language: Spanish
- Currency: Peso
- Mexico is a federal republic consisting of a federal government, 31 individual state governments, and a Federal District.
- Second largest economy in Latin America

- Mexican Revolution
- Porfirio Diaz was a Mexican politician who served seven terms as President of Mexico, a total of three and a half decades from 1876 to 1880 and from 1884 to 1911.

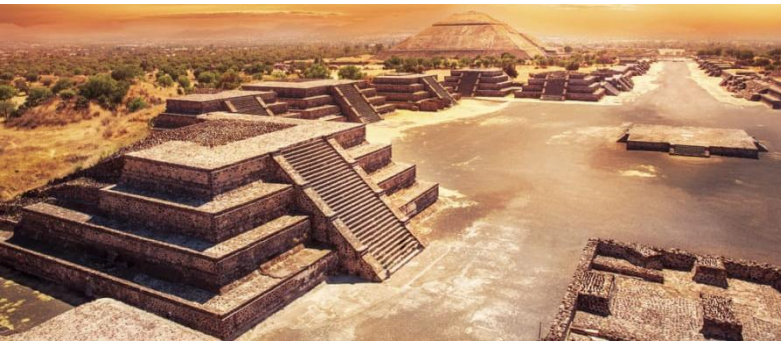

- The Mexican revolution marked a dramatic change in the society and the creation of 1917 Constitution.

However, if you are tired of the city life and want to scape somewhere in order to enjoy a nice vacation, Mexico is also the right place to do so, with innumerable hideout spots. Well known by the tourist, Cancun, located in the Caribbean cost, is considered as a paradise, its crystalline water and amazing nature will make every second of your travel unforgettable. Moreover, beaches are not all you have over there, shopping, hiking and adventure are also a possibility.

Also, the Mexican food culture is famous internationally, our cuisine has Spanish and indigenous influences, which creates an amazing mixtures of flavors and makes it very unique. Depending of the region you visit the traditions and the dishes you can get changes drastically and has an authentic approach of Mexican culture. When it comes to eating, Mexican culture doesn't lose to anyone, that is why we are the fastest country in the world (definitely a thing that we shouldn't be proud of).

As a manner of conclusion, Mr. Kerrigan hopes with this short article you are able to have a sneak peak of what Mexico has to offer and hopefully changed your idea of this country in positive way. Every personal willing to visit and learn about it, is welcomed and he almost sure that they will have an unforgettable experience. Hopefully one day students from China can come and enjoy a exchange semester in his university and corroborate what he is saying is true.
